

## List of Signatures - Protest ...

Summary and background concerning the drive for signatures.	To this date more than 1400 dogs were killed due to the Danish Dog Law established in 2012 in Denmark, which prohibits 13 dog breeds and mongrels of those breeds,. The politicians developed this Dog Law without the necessary essentials and expert knowledge. Dog breeds were selected without a scientific substantiation.
Purpose of the signature gathering.	We, the signees, are concerned citizens of other EU-Countries and EU-States, who no longer are willing to tolerate the murdering of innocent creatures. We want to set an end to it. By signing this petition we convey our opinion toward the politicians in Denmark and furthermore plead emphatically to abolish the Dog Law.
